EDUCATION

McGill University

Montreal, Canada

Bachelor of Science in Computer Science

Expected Graduation Date: May 2026

- Relevant coursework: Intro to Computer Science and Object-Oriented Programming (OOP), Data Structures and Algorithms, Intro to Software Systems Programming (Unix), Software Design, Operating Systems

WORK EXPERIENCE

Software Developer Intern

January 2025 - May 2025

Cerence AI

Montreal, Canada

- Enhanced system observability by implementing middleware to track latency and performance metrics across gRPC and REST services
- Boosted testing efficiency by automating data extraction and preparation using Python and pandas to fetch and process regularly updated testing data
- Authored comprehensive test cases and built a test framework using pytest to improve code reliability and coverage
- Integrated deployment tests into GitLab CI/CD pipelines to assist with automating development processes
- Contributed to daily Scrum meetings, tracking task progress, implementing mentor feedback, and using Jira to manage Agile workflows

Software Developer Intern

May 2024 - September 2024

Moast

Montreal, Canada

- Built an internal dashboard with Remix (React.js framework) for the user interface, utilizing Node.js, JavaScript, PostgreSQL, and Prisma for data retrieval and insights
- Utilized programmatic search engine optimization (pSEO) techniques to create over 50 web pages and increase business visibility
- Produced documentation to assist with onboarding future software developers
- Identified and resolved software bugs, improving reliability and quality of production-level code

Computer Programming Instructor

July 2023 - August 2023

Under The GUI Academy

North Vancouver, Canada

- Taught elementary and high school students fundamentals of programming and OOP concepts through the PixelPAD engine using Python
- Followed a course curriculum and assisted students with developing their own simple applications

EXTRACURRICULARS

Software Subteam Member

September 2024 - December 2024

McGill Formula Electric

Montreal, Canada

- Built a graphical user interface to display and graph data regarding the vehicle's performance using Python, pandas, Plotly, and PyQt5

PROJECTS

liveBus | [Kotlin](#), [Android Studio](#), [TransLink REST API](#), [Google Maps SDK](#) github.com/ionbasha/liveBus

- Developed an Android bus tracking app written in Kotlin using the Android Studio development environment
- Implemented a map to display buses using Google Maps SDK for Android
- Retrieved real-time transit information using TransLink REST API
- Published on Google Play Store

TECHNICAL SKILLS

Programming Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

Frameworks: React.js, Node.js

Developer Tools and Libraries: Git, VS Code, IntelliJ, Android Studio, REST APIs, Prisma, Jira, CI/CD pipelines, pandas
